

CONSENT FOR COUNSELING SERVICES

THE THERAPY PROCESS Therapy is a collaborative process where you and your Provider will work together on equal footing to achieve goals that you define. This means that you will follow a defined process supported by scientific evidence, where you and your Provider have specific rights and responsibilities. Therapy generally shows positive outcomes for individuals who follow the process. Better outcomes are often associated with a good relationship between a client and their Provider. To foster the best possible relationship, it is important you understand as much about the process before deciding to commit.

Therapy begins with the intake process. First, you will review your Provider's policies and procedures, talk about fees and identify emergency contacts. Second, you will discuss what to expect during therapy, including the type of therapy, the length of treatment, and the risks and benefits. If your Provider is practicing under the supervision of another professional, your Provider will tell you about their supervision and the name of the supervising professional. Third, you will form a treatment plan, including the type of therapy, how often you will attend therapy, your short- and long-term goals, and the steps you will take to achieve them. Over time, you and your Provider may edit your treatment plan to be sure it describes your goals and steps you need to take. After intake, you will attend regular therapy sessions at your Provider's office or through video, called telehealth. Participation in therapy is voluntary - you can stop at any time. At some point, you will achieve your goals. At this time, you will review your progress, identify supports that will help you maintain your progress, and discuss how to return to therapy if you need it in the future.

TELEHEALTH SERVICES To use telehealth, you need an internet connection and a device with a camera for video. Your Provider can explain how to log in and use any features on the telehealth platform. If telehealth is not a good fit for you, your Provider will recommend a different option.

There are some risks and benefits to using telehealth:

Risks:

- **Privacy and Confidentiality.** You may be asked to share personal information with the telehealth platform to create an account, such as your name, date of birth, location, and contact information. Your Provider carefully vets any telehealth platform to ensure your information is secured to the appropriate standards.
- **Technology.** At times, you could have problems with your internet, video, or sound. If you have issues during a session, your Provider will follow the backup plan that you agree to prior to sessions.
- **Crisis Management.** It may be difficult for your Provider to provide immediate support during an emergency or crisis. You and your Provider will develop a plan for emergencies or crises, such as choosing a local emergency contact, creating a communication plan, and making a list of local support, emergency, and crisis services.

Benefits:

- **Flexibility.** You can attend therapy wherever is convenient for you.
- **Ease of Access.** You can attend telehealth sessions without worrying about traveling, meaning you can schedule less time per session and can attend therapy during inclement weather or illness.

Recommendations:

- Make sure that other people cannot hear your conversation or see your screen during sessions.
- Do not use video or audio to record your session unless you ask your Provider for their permission in advance.
- Make sure to let your Provider know if you are not in your usual location before starting any telehealth session.

CONFIDENTIALITY Your Provider will not disclose your personal information without your permission unless required by law. If your Provider must disclose your personal information without your permission, your Provider will only disclose the minimum necessary to satisfy the obligation. However, there are a few exceptions:

- Your Provider may speak to other healthcare providers involved in your care.
- Your Provider may speak to emergency personnel.
- If you report that another healthcare provider is engaging in inappropriate behavior, your Provider may be required to report this information to the appropriate licensing board. Your Provider will discuss making this report with you first, and will only share the minimum information needed while making a report. If your Provider must share your personal information without getting your permission first, they will only share the minimum information needed. There are a few times that your Provider may not keep your personal information confidential.
- If your Provider believes there is a specific, credible threat of harm to someone else, they may be required by law or may make their own decision about whether to warn the other person and notify law enforcement. The term specific, credible threat is defined by state law. Your Provider can explain more if you have questions.
 - If your Provider has reason to believe a minor or elderly individual is a victim of abuse or neglect, they are required by law to contact the appropriate authorities.
 - If your Provider believes that you are at imminent risk of harming yourself, they may contact law enforcement or other crisis services. However, before contacting emergency or crisis services, your Provider will work with you to discuss other options to keep you safe.

RECORD KEEPING Your Provider is required to keep records about your treatment. These records help ensure the quality and continuity of your care, as well as provide evidence that the services you receive meet the appropriate standards of care. Your records are maintained in an electronic health record provided by TherapyNotes. TherapyNotes has several safety features to protect your personal information, including advanced encryption techniques to make your personal information difficult to decode, firewalls to prevent unauthorized access, and a team of professionals monitoring the system for suspicious activity. TherapyNotes keeps records of all log-ins and actions within the system.

FEES FOR SERVICES AND 24-HOUR CANCELLATION POLICY You may be required to pay for services and other fees. You will be provided with these costs prior to beginning therapy and should confirm with your insurance if part or all of these fees may be covered. You should also know about the following:

- **No-Show and Late Cancellation Fees will be charged for clients who do not cancel 24 hours in advance.**
 - If you are unable to attend therapy, you must contact your Provider 24-hours before your session. Otherwise, you may be subject to fees outlined in your fee agreement. Insurance does not cover these fees.
- Balance Accrual

- Full payment is due at the time of your session. If you are unable to pay, tell your Provider. Your Provider may offer payment plans or a sliding scale. If not, your Provider may refer you to other low- or no-cost services. Any balance due will continue to be due until paid in full. If necessary, your balance may be sent to a collections service.
- Your Provider may charge administrative fees for writing a letter or report at your request; consulting with another healthcare provider or other professional outside of normal case management practices; or for preparation, travel, and attendance at a court appearance. These fees are listed in the fee agreement. Payment is due in advance.

Covered and Non-Covered Services

- When your Provider is out-of-network, they do not have a contract with your insurance company. You can still choose to see your Provider; however, all fees will be due at the time of your session to your Provider. Your Provider will tell you if they can help you file for reimbursement from your insurance company. If your insurance company decides that they will not reimburse you, you are still responsible for the full amount.

Payment Methods

- The practice requires that you keep a valid credit or debit card on file. This card will be charged for the amount due at the time of service and for any fees you may accrue unless other arrangements have been made with the practice ahead of time. It is your responsibility to keep this information up to date, including providing new information if the card information changes or the account has insufficient funds to cover these charges.

COURT RELATED FEES AND SERVICES

- Court testimony costs begin at \$250.00 an hour with a minimum charge of three hours. A retainer of \$750.00 is due one week prior to the court date. Travel is billed at .50/mile. Failure to provide the specific fees as described constitutes a release from the requested court appearance.
- It is required that a minimum of 36 hours' notice be given if the testimony is not required, otherwise the entire retainer is forfeited. If proper notice is given, the retainer will be refunded.
- Additional services related to court preparation including all correspondence with attorneys or other service providers via phone, email or letter, documentation review and/or documentation preparation are also billed at \$250.00 per hour, rounded to the nearest 15-minute increment.
- In cases where a therapist is being contracted to work with a child in a divorce/custody case, a certified copy of the temporary orders or divorce decree must be provided prior to the therapist beginning treatment.

CY-HOPE COUNSELING CLINIC POLICIES

COMPLAINTS If you feel your Provider has engaged in improper or unethical behavior, you can talk to them, or you may contact the licensing board that issued your Provider's license, your insurance company (if applicable), or the US Department of Health and Human Services.
